EXPERIENCE

Systems architecture

Jan. 2021 - Present

Web System design

- Dragon
- boce-crawler
- · local-library-website

System migration and refactoring

- · From Alibaba Cloud to AWS
- · From VMs to Kubernetes
- From Java spring microservices to Kubernetes

Cloud Computing Jan. 2021 – Present

Operation

- Amazon Web Services(AWS)
- Google Cloud Platform(GCP)
- · Microsoft Azure
- Alibaba Cloud
- CloudFlare

Kubernetes Jan. 2022 – Present

Admin

- · Maintain operations for k8s Cluster
- Troubleshooting: pod crashloopbackoff, network, I/O problems(Race Condition, OOM Out of memory)...etc
- Subsystem research and deploy: Ingress-NGINX, Cert-manager, Prometheus, Grafana, Redis, RabbitMQ,
 Elasticsearch, Fluentbit, Kibana, Gitlab runner, Tekton, KubeSphere, EMQX, Nacos, RocketMQ, ZooKeeper

PROJECTS

Dragon

- · Building a system based on distributed model with multi k8s Clusters which provides streaming services
- Based on an open source project: SRS(Simple Realtime Server), we create backend-API with golang as Webhook to extend the SRS server features and frontend interface via React + Next.js.
- Languages & Tools: Kubernetes, k6, kubectl-graph, Tekton, Apache JMeter, Doxygen, C++, ffmpeg, Golang, go-callvis, go-swagger, Alibaba Cloud, GCP, CDN network, JavaScript, Node.js

boce-crawler

- Building a web-service monitor/alarm system such as Datadog, UptimeRobot...etc
- Because of the data loss of our third-party monitoring API, I develope a backend service to collect data on third-party network monitor system and push those data to our MariaDB for grafana datasource.
- Languages & Tools: Python, Requests, Beautiful Soup, Selenium, undetected-chromedriver, pandas, SQLAlchemy, MariaDB, crontab, Grafana

local-library-website

- Building a local-library-website with the Python Django Webframework
- Languages & Tools: Proxmox Virtual Environment, Arch Linux, Python, Django, JavaScript/HTML/CSS, PostgreSQL, SQLite

EDUCATION

National Dong Hwa University

Master of Science in Materials Science and Engineering

Sep. 2016 – Jan. 2019 Shoufeng, Hualien

• Thesis: Ultrafast Pump-probe Transient Absorption Spectroscopy of Layer-controllable Molybdenum Disulfide Films

• Research: Semiconductor Materials

SKILLS

Languages: Mandarin (native), English (professional working proficiency)

Programming: Python(proficient), C(competence), JavaScript/HTML/CSS(competence), SQL(competence)

Frameworks: Selenium, pandas, SQLAlchemy **Infra**: Kubernetes, GitLab Runner, Tekton
